Special Session on: **Aerospace Control**

Special Session Organizers (names and contact emails):

Ouassima Akhrif (ouassima.akhrif@etsmtl.ca)

David Saussié (david.saussie@polymtl.ca)

Technical Outline of the Session (50 words) and Topics:

Aerospace systems still remain a privileged area to develop and apply new control techniques. This special session aims at gathering a wide range of aerospace control applications. Contributions related to more «green» aircraft and associated challenges are greatly encouraged.

Topics of interest include, but are not limited to:

- Flight control (aircraft, helicopter)
- Launch vehicle control
- Missile control
- Engine control
- Satellite control
- Green aircraft
